Computer Networking, Software Testing, Software Development Life Cycle

PROJECTS

Netflix Clone Project | *JavaScript, HTML and CSS*

[GitHub](#)

- This is a responsive web application replicating the popular Netflix homepage layout.
- It showcases movie posters categorized by genres and allows users to click on posters to watch trailers.
- This project demonstrates front-end development skills with a focus on user interface design and interactivity.
- The project aims to provide a seamless and engaging user experience like the real Netflix platform.

Café Management Project | *Python – MySQL connectivity*

[GitHub](#)

- "KAFFYN - The Cafe: Python MySQL Connectivity for Cafe Management System" is a project aimed at implementing a robust cafe management system.
- It features secure authentication, a user-friendly customer interface for seamless ordering, and comprehensive manager functions including order and menu management, staff management, and financial reporting.
- The system enhances efficiency, accuracy, and flexibility in cafe operations.
- Implemented in Python with MySQL connectivity, it offers a command-line interface for ease of use, with future plans for GUI integration and additional features like inventory management and online ordering capabilities.

Tic Tac Toe Game | *HTML, CSS, JavaScript*

[GitHub](#)

- A classic game built using HTML, CSS, and JavaScript, playable by two players on a single PC.
- Players aim to align three marks (X or O) horizontally, vertically, or diagonally before their opponent.
- Features a user-friendly interface with responsive design, ensuring playability on both desktop and mobile devices.
- Highlights include automatic detection of winning patterns, turn indication, and an option to restart the game.

Social Network Snapshot | *HTML and CSS*

[GitHub](#)

- This website offers a concise summary of "The Social Network" movie directed by David Fincher, providing insights into its plot, characters, and central themes.
- This website provides a convenient resource for users seeking quick insights into the captivating narrative of "The Social Network."

WORK EXPERIENCE

Operation Associate, Dashmart (Doordash), Toronto

February 2024 – Present

- Picked and packed orders received through the app, ensuring accuracy and timely delivery.
- Managed inventory and minimized spoilage by organizing stock and monitoring shelf life.
- Collaborated with team members to ensure customer satisfaction through accurate order fulfillment and appropriate substitutions.
